

DATASTORM UPPER CONTROL BOARD GPS

New style Upper Control Boards are starting to receive a new GPS module called Furuno. D2 software version 3.6.1 Beta and higher will support this new change. Below is a visual comparison between the previous GPS module [Trimble-it uses a wrapped antenna setup] and the new Furuno.

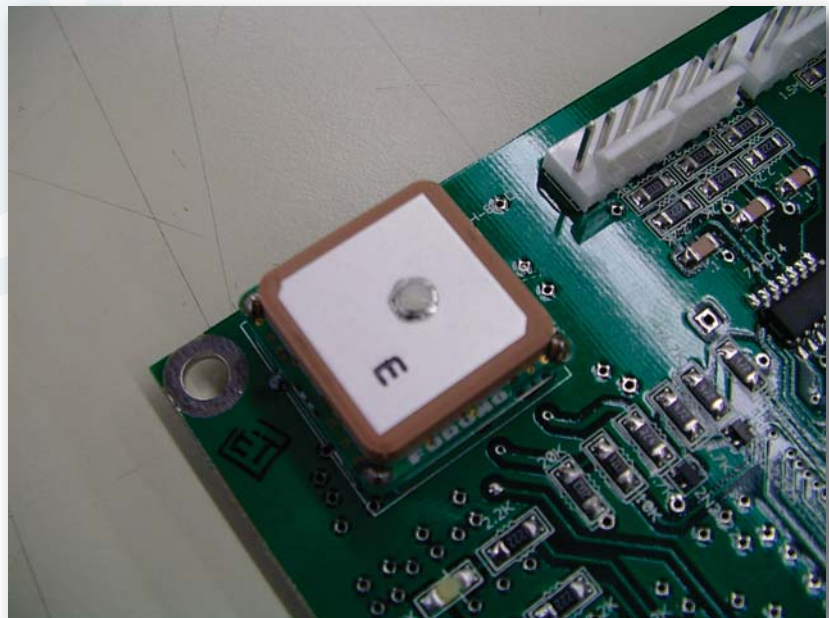

TRIMBLE GPS MODULE WITH WRAPPED ANTENNA

FOR USE WITH ALL D2 SOFTWARE BUILDS

NEW FURUNO GPS MODULE

FOR USE WITH D2 SOFTWARE V. 3.6.1 AND HIGHER
